DEVELOPER SKILLS

JAVA
I learned OOP with Java for the first time. I developed applications such as a calculator, student information system, e-commerce website, matching game, etc.

C#
This year, I learned C# for the object oriented programming course. I developed a Sports Tracking Project with Layered Architecture using MySql.

C
I learned the C language during the summer break to adapt to my new university. I developed applications such as a note-taking app, rock-paper-scissors game, etc.

HTML - CSS - JS
I am learning with the Udemy course "Web Development Bootcamp." The course link is here.

VOLUNTEERING

AFYON KOCATEPE UNIVERSITY

GDG Afyon Community
Coordinator of the R&D Department
We are providing Dart and Flutter training to community members until the end of the second term. We organized the first Devfest event ever in Afyon. My department took on the responsibilities of finding speakers, interacting with them, and handling promotional tasks. At the same time I served as the host of this major event. We organized a tour for Turkey's largest Devfest held in Konya.
📅 09.2023 - ...
📍 Afyon, Turkey

Computer Engineering Club
Coordinator of the Sponsorship Department
📅 09.2023 - ...
📍 Afyon, Turkey

CANKIRI KARATEKIN UNIVERSITY

IEEE CAKU Community
Vice President
We organized online meetings to discuss the progress of the community, management changes, and upcoming events for the next year.
📅 03.2023 - 09.2023
📍 Cankiri, Turkey

IEEE CAKU Community
Part of the Management Team
We organized a meet-and-greet breakfast and participated in Technofest competitions. We followed the Unity 3D course together here.
📅 10.2022 - 03.2023
📍 Cankiri, Turkey
